### CELEBRATING EXCELLENCE AT NORTHWEST SECONDARY SCHOOL OF THE DEAF

We proudly hosted the 2024 Matric Excellence Award ceremony at the Northwest Secondary School of the Deaf in Leeudoringstad. Attendees included key representatives from the Stakeholders Engagement Forum, local government, and the Department of Social Development.

The event celebrated Grade 12 learners' achievements and reinforced our commitment to education and community development. Learners received laptops and certificates, symbolising our investment in their future.

*"The event was not just a celebration of individual achievement but a collective investment in brighter futures for the youth in Matlosana and Maquassi Hills."* – Qinisani Siveshe, Social Performance Manager for Bokamoso Solar.

### EMPOWERING TIRAGALO SECONDARY SCHOOL WITH LIBRARY RESOURCES

We're pleased to have funded the newly launched library at Tiragalo Secondary School in Kgalaka, which will benefit over 1,000 learners at the school.

This support aims to foster educational growth, bridge the digital gap, and provide

learners with the tools they need to succeed. The newly launched library is now equipped with Lenovo IdeaPads, LED projectors, tripod screens, magnetic whiteboards, and furniture, transforming it into a dynamic learning hub.

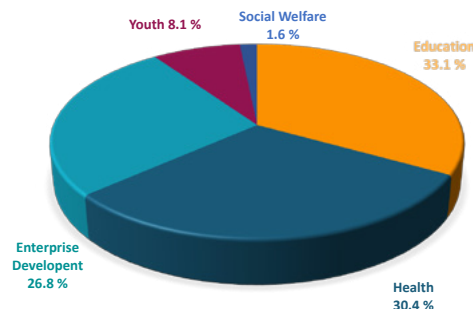

### BACK-TO-SCHOOL SUPPORT FOR KANANA LEARNERS

We kicked off the school year by donating essential school shoes and backpacks to five schools in Kanana, Orkney.

This initiative aims to not only alleviate financial burdens on families but also instill confidence and enthusiasm amongst learners.

*"By providing these essentials, we continue our commitment to bridging educational gaps. It's a meaningful step toward empowering disadvantaged learners to thrive academically, because every child deserves the tools to succeed."*  
– Qinisani Siveshe
